**AIR CANADA RESUMES SERVICE FROM MILWAUKEE MITCHELL TO TORONTO**  
*MKE welcomes back route previously suspended during COVID-19 pandemic*

**MILWAUKEE (JUNE 23, 2022)** – Air Canada has resumed its daily nonstop service between Milwaukee and Toronto. The route had been suspended in 2020 due to the COVID-19 pandemic.

“We’re very pleased to welcome back Air Canada and all the travelers who enjoy the popular Toronto route,” said Airport Director Brian Dranzik. “Many people are traveling this summer for the first time in two years. This relaunched nonstop service gives travelers easy access to Canada’s largest city, known for its beautiful waterfront and rich ethnic and cultural offerings, as well as nearby Niagara Falls.”

Through Air Canada’s Toronto Pearson primary global hub, travelers can also connect easily to exciting destinations across Canada, Europe, Asia, Africa, and the Middle East.

Air Canada’s MKE flights now operate seven days per week on CRJ-200 aircraft. The route is one of 11 cities and 41 routes that Air Canada suspended across North America when the pandemic began.

Tickets are available at [aircanada.com](http://aircanada.com) or on the Air Canada mobile app. The route can also be booked through Air Canada’s Star Alliance partner, United Airlines.

*Milwaukee Mitchell International Airport offers nonstop flights to 35+ destinations coast-to-coast, and more than 200 international destinations are available with one easy connection. MKE is served by Air Canada, Alaska, American, Delta, Frontier, JetBlue, Southwest, Spirit, Sun Country, and United. The complete list of nonstop cities can be found at [flymke.com](http://flymke.com).*

*MKE, the winner of a 2021 ASQ Best Airport – North America award for outstanding customer experience, is owned by Milwaukee County and operated by the Department of Transportation, Airport Division, under the policy direction of the Milwaukee County Executive and the County Board of Supervisors. The Airport is entirely funded by user fees; no property tax dollars are used for the Airport’s capital improvements or for its day-to-day operation.*
